### Aims:

To provide a forum for discussion on how Bologna Process can take the profession of Physiotherapy forward to "*One Europe One Profession*"

### Objectives:

- To give examples how different countries are implementing the Bologna Process, including the two main cycles of education;
- Discuss the responsibilities of the Professional Organisations (members of the European Region of the World Confederation for Physical Therapy, and other regulatory bodies), Quality Assurance Agencies and Higher Education Institutions, in taking the Bologna Process forward;
- Discuss on how the profession is dealing with the challenges to meet the Bologna goals and moving forward to a common platform of learning

### Structure:

It is planned a period of 45 minutes for the introduction to the contributors and the topic, and for short presentations from the contributors, followed by another period of 45 minutes for discussion and debate with the audience, summing up and conclusions.
